

Wedding Checklist

By Eventia Event Designers

As soon as you get engaged and become serious about planning the wedding, sit down with your other half and discuss your dream wedding. Make sure you start a wedding-planner file in which you keep all correspondence, ideas, quotes, contact details, samples etc.

PRE-WEDDING TASKS

- Work out your budget. Establish your top priorities — where to save/where to splurge.
- Compile your preliminary guest list. Jot down them down.
- Start researching Venues: Schedule appointments to go visit the selected venues and start short listing.
- Find ideas. Start browsing in the web, identify your wedding style and color palette.
- Pick a date/ weekend for your wedding. Tell everyone to save it! For destination weddings, consider sending out Save-the-Date cards or emails. Or create your own wedding website, and let your invitees know about it.
- Wedding Website (optional): Set up your wedding website with all the details of your wedding.
- Assemble an all-star vendor team. Start with:
 - Caterer
 - Photographer/Videographer
 - Get all their details in writing!
- Make the Arrangements for transportation.
- Select a vendor for your Mehendi, Hair, Make up and Arranging your Sari.
- Select Wedding Outfits for the entire bridal party and Jewelry Sets for yourself.
- Make arrangements for Childcare for your Ceremony and Reception
- Prepare Ceremony Programs and Other Stationary: Design the proof of concept for your ceremony programs. If you are designing any other stationary, scrapbooks for display etc., you should consider doing it right away.
